¹ **Family and Community Medicine** is an outpatient rotation where residents strengthen outpatient skills and develop a continuity relationship with their panel of patients. Community activities based around specific themes for each rotation complement this experience. Themes include medical outreach, youth outreach, advocacy, vulnerable populations, public health, behavioral health, practice management and quality involvement.

² Night float is five nights a week.

³ Dermatology is also present as a longitudinal experience.

⁴ Remaining two weeks of Geriatrics will be accomplished longitudinally.

Procedures training will occur longitudinally throughout the three years.
Rotation schedule subject to change.
